6 ReluxDesktop Customized training for companies

Do you need a different combination of the seminars described above? We offer customized seminars for companies. You can create your own individual seminar on the registration form. Simply mark your suggestions.

We offer a package of 3 seminar days. Upon request we conduct the seminar at your company.

6.1 Target group

Employees or customers of companies, which would like to conduct a customized seminar at their own company or any other place of their choice.

6.2 Equipment / Organization

On receiving the completed form we will contact you to discuss further details.

We provide the hardware and software required for the training sessions to ensure an optimum working environment. You arrange for a seminar room equipped with projection space for the projector and necessary furniture and power supply (230V).

The seminars can of course also be held on our premises in Basel where suitable rooms are readily available.

6.3 Duration

09.15 am – 04.00 pm

6.4 Registration & Location

See registration form for the relevant country.
